

NEWS BUDGET OF THE BADGER STATE

TEACHERS AT MADISON TO DISCUSS LIVE TOPICS

Winnebago Indians Suffering For Food—An Anti-Saloon League Formed—Gift to a Fond du Lac Church—A Matrimonial Reconciliation.

Madison, Wis., Feb. 25.—The committee appointed to prepare a program for the meeting of the state teachers' association to be held during the semi-centennial, held a meeting in the office of the superintendent of public instruction and decided to recommend that the program consist of four addresses by Wisconsin men on the following subjects: The Pioneer Epoch of Education in Wisconsin; The Building of the School System in Wisconsin; The Country Schools of Wisconsin; and The Evolution of the Wisconsin Teacher. The remainder of the program will be devoted to short talks by pioneer teachers of Wisconsin.

The movement for a veterans' reunion in connection with the semi-centennial celebration is taking definite form. A great many letters have been received in response to the circular call sent out some days ago by Col. G. B. Merrick, secretary of the veterans' reunion committee. In every instance the letters express great interest in the proposed encampment.

SUFFERING FOR FOOD.

Winnebago Indians Find Game Scarce and Hard to Get.

Black River Falls, Wis., Feb. 25.—H. B. Roddy, chief White Buffalo, is kept busy at present listening to the grievances of his tribe over the hard times which the Winnebagos always have at the close of winter. The game is very scarce, and they were never known to work, and the merchants have lost by trusting them, so that there are but few who can get credit, and their government annuity is not due until July and they are destitute and in want. Mr. Roddy believes that a petition should be sent to congress asking that a per cent. of the \$900,000 which is held in trust for the members of the Winnebago tribe be added to their interest of \$36,000 which will help them get square with the world, old debts could be wiped out and the money invested in land where they could settle and cultivate the land, and thus do a great deal toward supporting themselves and thereby prevent the present suffering and want. It is very likely a petition to this effect will be presented to congress with the hearty approval of every member of the tribe, and endorsed by all business men in this section of the country.

TO FIGHT THE SALOONS.

Organization of a State League Opposed to Liquor Selling.

Madison, Wis., Feb. 25.—The Wisconsin Anti-Saloon league was organized yesterday and the following officers were elected: President, the Rev. John Faville, Appleton, superintendent, the Rev. W. O. Carrier, Wausau. The meetings were secret and the members refused to give the name of the secretary, as the man elected had not been notified. Superintendent Carrier was employed as a permanent organizer and will give his entire time to the work. The Ohio plan, of dividing the state into districts and conducting the campaign against saloons in the separate districts was adopted. All those attending were organized as an executive board with power to add to its number. About a dozen were in attendance.

A BEAUTIFUL GIFT

Fond du Lac Church Receives a Valuable Statue From London

Fond du Lac, Feb. 25.—When Bishop Grafton was in London thirty-five years ago, he became acquainted with Miss Grant, a sculptress. The bishop, appreciating her genius, gave her much encouragement. Since then Miss Grant has executed many valuable pieces, and among them is "St. Margaret," a statue of heroic size, which attracted especial attention at the Paris exposition in 1887. This she has now given to St. Paul's cathedral, and it arrived from London today. It will occupy a position in the front entrance of the cathedral. It is valued at \$6,000.

KISSED AND MADE UP.

Divorced West Superior Couple Harmonize Their Difficulties.

La Crosse, Wis., Feb. 25.—Charles E. Busell, a civil engineer of West Superior, came here to see the administrator of the estate of his uncle, the late E. C. Busell. His wife, who procured a divorce from him a year ago, came here the same day to find employment as a nurse. They learned of each other's presence through the newspapers, and each desired an interview regarding their three children. The result was their marriage. They will go at once to West Superior. Mr. Busell inherits \$900 per year from his uncle's estate.

ACCEPTED A CHICAGO CHAIR

Dr. Barnes Leaves the University of Wisconsin for the Windy City.

Madison, Wis., Feb. 25.—Dr. Charles R. Barnes, head professor of botany in

the University of Wisconsin, has accepted an offer from the University of Chicago to fill the newly created chair of plant physiology at the latter institution.

State News In Brief.

Pete Hanson, Olaf Kjorstad, Albert Hanson, Ole Amlee and Tom Kytrude left Black River Falls last night for the gold fields of Alaska. They are to go up Copper river and expect to be gone several years. They are all young men who have spent their lives in Wisconsin and more than a hundred of their friends were at the depot to wish them a safe and prosperous trip.

An inquest was held Wednesday over the death of Henry Beyer who died recently at Lake Mills. The verdict of the jury was that Beyer had come to his death through the use of alcoholic liquors. He had attended an auction the day before where liquor had been passed around freely and drank so much as to become helpless. Beyer was but 19 years of age.

The annual report of the Kewaunee, Green Bay and Western road filed with the state treasurer shows gross earnings of \$72,083.19 for 1897, an increase over the earnings for 1896 of \$3,819. The Green Bay and Western reports gross earnings of \$442,319.81 for 1897, an increase of \$26,002.05 over the earnings for 1896.

A company known as the Hurlbut-Armstrong company has been organized at Racine with a capital stock of \$20,000. The Hurlbut factory at Racine Junction will be purchased and operated by the company. About 100 men will be given employment. A line of special goods will be manufactured.

L. E. Buckman of Antigo has been arrested on a second charge of embezzling \$22,000 belonging to the band of Antigo. It is thought that the first charge will not be pushed, but that he will be tried on this later and more serious charge.

At Appleton Wednesday Judge Goodland of the circuit court quashed the proceedings preparatory to carrying the workhouse law to the supreme court. Lawyers are not decided whether or not they will make an appeal.

Actor David Louis, who has been staying in Marinette with a Miss Margaret Louis, with whom he eloped from Kansas City, was visited by his Chicago wife and ordered to return home. He went.

Judge Michael Kirwin, of Manitowish, has accepted the call of the bar to become a candidate for circuit judge in the fourth judicial district.

The Old Ladies' Home association of Racine has received \$30,000 which was turned over by the estate of the late Eliza Palmeter.

A fifth ward has been created by the council of Beloit. It includes the rapidly growing northwest portion of the city.

Otto Prieve, of Little Suamico, who was lost on Green Bay during the storm was found by a German Sunday night.

E. M. Maxim of North Freedom is dead. He was a pioneer of Sauk county, and was sixty-one years of age. Bishop Messmer has left Green Bay for a trip to Rome. A large party will accompany him.

A chapter of the Order of the Sons of the American Revolution has been organized at La Crosse.

G. J. Sprague, formerly editor of the Mauston Star, has gone to Klondike.

A son was born to Congressman and Mrs. E. S. Moor of Green Bay.

SPORT FOR THE ATHLETES

Coming Entertainment For the Local Club Dated For March 11.

The midwinter athletic event has been set to take place at the high school building on the evening of Friday, March 11. Several interesting events are down on the program for this year, as a goodly number of athletes promise to compete. Among the events scheduled are: shot put, pole vault, broad jump, high jump, 12-yard dash, and a basket ball game. The Athletic association is about \$60 behind expenses, and it is hoped that at this meet the deficiency may be met.

LA CHAMPAGNE STILL MISSING

No News Yet Received from the Overdue Steamship.

New York, Feb. 25.—[Special].—No news was received this morning of the overdue steamer La Champagne. Anxiety is increasing. Incoming vessels have seen no sign of her. There are 479 persons aboard. The vessel and cargo are valued at two millions.

GOOD NEWS FOR MARQUETTE MINERS

LONG SUSPENDED SHAFTS BOUGHT BY CHICAGO MEN.

Work Will Be Resumed at Once and Many Families Will Be Benefitted—Great Joy In the Community at the Improved Prospect.

Marquette, Mich., Feb. 25.—Marquette people are rejoicing over a deal made yesterday, for it means a summer of activity in the hills south of the city, and the possible leader to the commercial opening of the Marquette copper range. Wallace Q. Kirk, of Chicago, by the deal gets possession of the Ludlow interests in the Wilkinson mine. The Marquette end of the deal was closed today and all transfers formally made. Arrangements with the Ludlow interests have been perfected during the past week or two in Chicago, and Mr. Kirk now enters into absolute possession of the property.

Work was first begun at the prospect by a company which intended to put its stock on the market as soon as a showing had been made which would induce those having capital to invest.

Under the new arrangement there is no sale of stock contemplated. The new owner has made careful investigations. He believes he has a good thing, and has ample capital to work it alone.

Work has been suspended at the mine pending the outcome of the negotiations, which will be begun Monday morning and will be pushed steadily.

TO PREVENT DISINTEGRATION

Commander Gray Appeals to the Various G. A. R. Posts

In recent orders issued by Department Commander E. B. Gray, stress is laid upon the prospect of untimely disintegration in the ranks of the order, and radical measures to prevent such a disaster is recommended. This is what the circular says:

Returns for the term ended Dec. 31, 1897, so far as received, indicate that in order to arrest untimely disintegration in the ranks of the Grand Army of the Republic, every worthy comrade who is now suspended for non-payment of dues must be restored to full membership. This can be done in such a manner as each post considers best; by remission of dues; by paying the same from some of the many available sources, by personal solicitation of comrades, and by impressing all with the important fact that this parent of American patriotic orders is not organized for the purpose of making money, but for vastly higher and nobler objects. That it may be known what has been done along this line, a supplemental report will be received and published at the department encampment in May, covering the months of January, February, March and April, 1898, from all posts making net gains in membership during the first third of the current year. Post and staff officers are directed to give this vital subject earnest and persistent attention from the receipt of these orders until May 1 next, and not later than that date forward to the assistant adjutant-general, statements of the net gain in members since the reports of December 31, 1897.

THE CARE OF THE INSANE

President Heg Praises the County System as Cheap and Effective.

James E. Heg, president of the state board of control, who paid a recent visit to the Rock county insane asylum, speaks in the highest terms of the great improvements of the county system of farm asylums.

They are less expensive, says Mr. Heg, and more in keeping with the object sought in their construction, and give better results to the unfortunate and to the taxpayers. He is evidently opposed to greater expenditures for building state palaces to be run by a corps of high priced attendants, officials and paraphernalia. The actual cost per capita is just one-third as much in the county asylums as in the state asylums. Of course the state needs the two hospitals it now has for the acute cases where the best medical skill and specialists are employed, but these hospitals should not be asylums for the chronic cases which are by far the greater number in the hapless throng. Mr. Heg says much good is done and expense saved by the occupation afforded on the farms, when properly managed, which is the rule, or is fast becoming the rule in this state.

A special consisting of five cars in charge of William Dee and Foreman Thede made the rounds of the local yards of the St. Paul railroad company today, gathering up all the snow in sight. A force of twenty men are engaged in the work, and if such a thing is possible the company intends to have the yards clear before another storm sets in. The snow is taken on the railroad bridge where it is dumped in the river. The work will cost the company a snug sum before they are through.

TREACHERY HAS BEEN FULLY PROVED

PRESIDENT M'KINLEY SATIS- FIED OF SPANISH GUILT.

He Has Conclusive Proof That the Maine Explosion Was the Result of Design—Naval Reserves Called Out—Americans Preparing to Leave Havana.

New York, Feb. 25.—[Special].—A dispatch to the Herald says there is no longer any doubt that the Maine was wrecked by an explosion underneath the vessel. This evidence was secured by Ensign Powelson. The one member of the court of inquiry who always believed that the explosion was accidental has changed his opinion on the strength of this evidence. The operations of the divers show that the boilers did not explode, and that the excavator used for packing in the ten-inch magazine was not even charred. Divers have brought up several more cases of powder which have not the least mark of the explosion.

Rests on a Volcano

The Sun asserts that in a private interview the president said the country rests on a volcano which might erupt at any time, and that if the report of the board of inquiry shows the Maine was wrecked by a sub-marine mine, war is inevitable.

Changed Its Front

The Herald says Lee now declares positively the disaster was not due to accident. Since the time of the explosion the Herald has advocated moderation and held to the accident theory; therefore these statements carry much weight.

More Proof of Design

Washington, Feb. 25.—[Special].—It is said the government has in its possession a map of Havana harbor showing the Maine was anchored directly over a submarine mine.

A Favorable Report.

Washington, Feb. 25.—[Special].—The House military committee reported favorably the bill providing for additional artillery regiments.

The Public Knows All.

Washington, Feb. 25.—[Special].—President McKinley says that nothing of importance is being withheld from the public.

Getting Ready to Leave.

Americans are getting passports so that they can leave on a day's notice.

The Board of Inquiry.

Havana, Feb. 25.—[Special].—The inquiry has ended its sessions here. It will probably leave for Key West today, to continue sessions there.

The board may return next week to hear further testimony. The naval court of inquiry is still in session. It will adjourn to Key West tonight.

Divers are still at work. One more body has been found. Seaman Hoizer is dying.

Divers say many more cases of unexploded powder are in the wreck.

Takes the Maine's Place.

Tampa, Fla., Feb. 25.—[Special].—The cruiser Montgomery sailed today for Key West. She will proceed from there to Havana to take the place of the Maine.

Seamen Wanted.

Washington, Feb. 25.—[Special].—The navy department has given orders to enlist an unlimited number of able bodied seamen.

Needed Advice

Havana, Feb. 25.—[Special].—Newspapers here advise Spain to prepare for war with the United States.

Going to Havana

New York, Feb. 25.—[Special].—The Viceroy sails for Havana today.

Where Spain Would Be Attacked

Washington, Feb. 25.—"In the event of a declaration of war with Spain," remarked a naval official, "the Spanish mainland would be ignored, but the Philippines will receive our attention. The Asiatic squadron of the American navy will not be disturbed. Numerically it is weak, but in the matter of metal it is powerful. The Asiatic squadron is outnumbered four to one by the Spanish fleet in the Philippines, but notwithstanding that fact, the Asiatic squadron is powerful enough to sink every Spanish ship in Asiatic waters and reduce every Spanish stronghold in the Pacific inside of a week."

Senator Quay's View.

Beaver, Pa., Feb. 25.—Senator M. S. Quay and his son, Captain Curtin Quay, arrived at the senator's home in Beaver this morning, direct from Washington. When asked what was the actual condition of affairs in Washington he replied: "Affairs are at a very high tension." He said the government had positive information that the Maine was destroyed by a torpedo, but they think the Spanish government itself had nothing to do with the disaster and that the awful work was done by Spanish guerrillas, who thought by blowing up the boat they were aiding the Spanish government. "The torpedo that destroyed the battleship was made in the United States," said the senator. "Its character is fully understood. It was possible to send it through the water for a mile and to discharge it either by percussion or by a fine fuse, arranged by clock work. The torpedo probably was sped on its terrible mission by members of the volunteer army in

WEATHER FORECAST

Chicago, Feb. 25.—[Special].—

Forecast for Wisconsin:

Havana. The work had not the countenance of the Spanish authorities. Senator Quay thinks the work of the divers will simply prove what the government already knows.

For The National Defense.

A special to the World says a member of the House appropriations committee asked the president if he deemed it prudent to introduce a bill placing at the disposal of the government two hundred million dollars to complete the national defenses. The president seemed pleased with the proposition, but refused to express an opinion.

BOUND FOR THE KLONDIKE

Well Equipped Party Passed Through the City Yesterday

When the vestibule train from Chicago arrived in the city last evening, attached to the rear was a second class coach billed to Seattle. Within that coach were fifteen men all bound for the Klondike gold region. In the baggage car ahead were twenty-seven dogs of the St. Bernard breed, each apparently well trained and cared for. In the coach were several complete outfits that each cost a goodly sum, and which will be taken through to Dawson City in the spring. The car and its load of gold seekers was from the east, and this morning they expected to leave St. Paul via the Great Northern road for the Pacific coast.

Miss Hamilton, M. D.

Miss Hamilton, M. D., the well known English doctor at the court of the ameer, says that a few of the chief ladies in Kabul can read and write, but hardly a single one outside the capital can do so. It is considered a great accomplishment, and the princesses and a good many little girls are now being taught. But they make little if any use of their knowledge when they have acquired it. The sultana, who is the daughter of a mullah, or priest, can write fairly well, and she can read the Koran in Arabic, but not one word does she understand.

Cimarron's Woman Mayor.

Mrs. Curtis, mayor of Cimarron, Kan., keeps a store and is one of the most capable women of business in Kansas. The Kansas City World says: "She conducts the business of Cimarron with a master hand, and, while her election was looked upon as a joke, she is now regarded as the best mayor that Cimarron has ever had. Cimarron at this time is weighed down with a large municipal indebtedness contracted in a county seat war. Mrs. Curtis has taken the matter in hand and is handling it to the satisfaction of the bondholders and taxpayers."

Miss Louise Voerg.

Miss Louise Voerg holds the responsible position of chief operator at New Orleans of the Great Southern Telephone and Telegraph company. She has been in its employ for 13 years, is an expert operator and has 30 young women working under her. She is described as a woman of fine address and superior education and with a gracious manner and a kindly heart.

LEFT ALL TO THE WOMAN'S TEMPLE

MISS WILLARD LEFT HER PROPERTY TO HER IDOL.

To Assist in Lifting the Debt From the Chicago Building—Belief That the Managers Will Refuse to Accept It—Her Relatives Ignored.

According to the will of the late Frances E. Willard, relatives will not get one cent of her money. Her whole estate, valued at \$20,000, will go to the W. O. T. U. temple fund in Chicago, if the trustees of that fund deem it necessary for the salvation of the temple, which is badly in debt. The trustees, however, seem not disposed to accept it, on the ground that Miss Willard did her share toward the rearing of the temple during her life time, and her limited estate ought justly to go to the other beneficiaries of the will. These are her faithful private secretary, Miss Gordon, and her brother's widow, who by the altered native terms of the will, are given a life interest in the income of the estate which at their death will pass absolutely to the treasury of the W. O. T. U.

SUFFERING FROM THE GRIP

Some 500 Janesvillians in the Clutches of the Disease

The physicians of the city report the arrival of the grip, and all agree that it is here to stay for some time to come.

Few people have an idea of the prevalence of this malady. They have noticed that nearly all their friends are suffering from it, but have failed to conceive what that must mean. Every physician is treating a score or more of cases, and inquiry at their offices reveals the fact that some have more than that number under their care.

This is only a small proportion compared to the number who have placed their faith in medicines offered for sale at the drug stores and neglected calling a doctor. One physician stated yesterday that he believed there were not less than 500 cases of grip in Janesville.

Wedding at Evansville.

On Tuesday evening, about seventy-five guests gathered at the Garfield avenue home of Mr. and Mrs. Clinton Scofield, to witness the marriage of their daughter, Grace Maude, to Osmond M. Hubbard. The house was skillfully decorated with ferns, smilax and cut flowers. The bride and groom-elect escorted by the maid of honor, Miss Cora Scofield, sister of the bride, and the best man, Clarence Hubbard, brother of the groom, to the sweet strains of Mendelssohn's wedding march, played by Huyke's orchestra, entered the room, where Rev. Henry Sewell received the pledges which made two one. The attire of the bride was a handsome white silk brocade, and she carried white roses. The maid of honor's gown was pink figured silk crepe, and she carried yellow roses. Little Miss Cleve Gillman, cousin of the bride, acted as usher. Immediately after the ceremony an elegant repast was served by six young ladies, friends of the bride. They received many handsome and costly gifts. This event will long be remembered by Mr. Scofield, the occasion being his fiftieth birthday, and the marriage of his daughter. The bride is the eldest daughter of Mr. and Mrs. Clinton Scofield, and is widely known in this city and vicinity. The groom is a son of Mr. and Mrs. B. W. Hubbard, and is a highly respected young man, and has lived here most of his life, but for the last two years has been holding a responsible position at Footville, Wis. The happy couple left on the vestibule for a short trip, and will be at home after March 5, at Footville, Wis.

Death of John Crow.

Center, Feb. 24—Our citizens, without exception, are mourning the recent death of John Crow. He was born Sept. 15, 1809, at Cross Roads, Washington Co., Penn. and on August 26, 1830, he was married to Sarah A. Hartzell at New Lisbon, Columbia Co., Ohio. They lived in Ohio after their

marriage sixteen years, and during that time Mr. Crow with his wife united with the Presbyterian church, of which they were devoted members, until 1846, at which time they moved to Wisconsin, bringing with them letters of recommendation to the church of their choice. On arriving at Center he united with the Congregational church, being a charter member with which he remained until Sept. 15, 1864, when he united with the Church of Christ at this place. In the autumn after they arrived here death entered their home and took their little daughter, Anna. This was the first death that occurred in the town of Center. She was buried on the northeast corner of the farm and there formed a tie that held the family here in Wisconsin as they had become homesick and wished to return to Ohio. He was the father of eight children. Seven of these have preceded him to paradise, five of them in infancy, and two, Louise and Mary Ann, the wives of S. W. and Seth Fisher in womanhood. He has been twice married. His first wife died Dec. 17, 1897. He was again married in the fall of the following year to Louise Bowman, who should be beautifully rewarded for her kind and watchful care over him through his last days. He died Feb. 17, 1898, the funeral being held at the Center Church of Christ on Sunday. Services were conducted by Rev. I. B. Spencer, after which he was laid to rest by the side of Aunt Sallie. He was a man of good culture, excellent character and a remarkable neighbor, leaving behind a host of friends to mourn his loss.

Lima Center.

On Tuesday, Feb. 22, DeWitt L. Bacon of Lima, was married to Mrs. Maggie Glasse of Jefferson. I. L. Beese attended the lecture by General Gordon in Whitewater, Wednesday evening. Dr. Stetson and daughter, Miss Ethel, were in Janesville Wednesday. A. L. Cowles was over from Milwaukee, Wednesday. G. E. Fuller is on the sick list. We are glad to learn that Miss Cora Kenyon, who has been sick for some time, is able to be out again. Mrs. Willard Austin of South Lima, was a caller at W. D. McDoom's, Wednesday. Andrew Adams has gone to Iowa to spend the summer.

Care

NEWS FROM THE MORNING PAPERS

Washington, Feb. 25.—There was little official news from Havana Thursday, and an anxious expectancy which impressed the most radical and reckless talkers. There has been little talk of the situation, for the people upon whom will rest the responsibility of action are waiting for the verdict of the jury now sitting on a small United States vessel in Havana harbor. It is everywhere in Washington regarded as a most significant indication that the naval board of inquiry has some very important evidence of a delicate nature, which makes it necessary that secrecy shall be maintained until the court conclude its inquiry and make up its case, before such investigation may become impossible.

The words of Senator Thurston in the Senate are regarded as most significant. As one of the close friends of President McKinley, the Nebraska Senator said: "It is of the utmost importance to the American people that the inquiry there shall be concluded peacefully, fully, and satisfactorily. If our strained relations were to come to a crisis before that inquiry is completed, before the result is definitely known, before we are able to satisfy the world as to what caused that terrible disaster, it would be most unfortunate."

The President has taken many Senators and Congressmen into his councils. He has shared with Senators and Representatives of the people the grave suspicion that the Maine was not destroyed by accident. He is waiting for the facts, not in fear, but with the hope that these facts will not show that another civilized nation has been guilty of the greatest and most horrible crime ever known against this Nation.

He realizes that the American people are inflamed to the point of going to war with Spain, whether he calls for troops or not. He also realizes that only the indisputable facts, as reported by the board of inquiry, will make the provocation of this government clear to all the world, so that its action "will be so clear as to command the support and approval of the civilized world."

President McKinley has an abiding faith in the American people, that they will wait, as he is waiting, until the facts are reported to him by the jury now gathering them. He is as anxious as anybody that the court complete its work as quickly as consistent with a full and fair investigation. When the facts are given to him officially he has assured his friends that he will give them to the people.

There will be no star-chamber proceedings over the verdict. The investigation must necessarily be secret, because it is carried on in a hostile harbor, or one that may immediately become hostile when the result is known. The government is moving in this matter with every precaution, that it may not be charged that the United States took a most important action on a mere suspicion.

SPAIN ASKS INTENTION.

Wants to Know if War Has Been Declared On.

Washington, Feb. 25.—Among the rumors heard is one that Spain has asked the United States for announcement of its intentions. The authorities at Madrid are said to believe that if the administration has decided that hostilities are inevitable the information should be communicated to Spain.

Mr. Du Bosc, the Spanish charge d'affaires, acting under instructions from his government, it is said, called at the state department. It is said that he interrogated Assistant Secretary Day with a view of determining what depth of meaning there is in the present overwhelming demand on the part of the people for war with Spain.

Judge Day replied that up to this time no official proof exists that the battle-ship Maine was destroyed by an external explosion. The attitude of the administration was explained. No action of any kind would be taken until the board of inquiry has submitted its report.

It is said that Du Bosc has communicated the information obtained to his superiors with the expectation of allaying uneasiness in Madrid.

ILLINOIS HEADS LIST.

Has Greatest Number of Naval Reserve Ready for Duty.

Washington, Feb. 25.—The navy department has given out the figures showing the strength of the naval militia up to date. This shows a total force of 4,445 officers and enlisted men, which is a gratifying increase from the 3,703 shown by the last report. The number of officers and men by states is as follows: California, 346; Connecticut, 165; Florida, 186; Georgia, 225; Illinois, 523; Louisiana, 262; Maryland, 240; Massachusetts, 441; Michigan, 193; New Jersey, 364; New York, 472; North Carolina, 230; Ohio, 216; Pennsylvania, 216; Rhode Island, 130; South Carolina, 152; Virginia, 44. Total, 4,445.

Assistant Secretary Roosevelt says in this connection that Illinois leads the list with forty-three commissioned officers and 423 petty officers and enlisted men.

Secretary Long to the Public.

Washington, Feb. 25.—Secretary Long, in answer to inquiries whether the department was suppressing information concerning the disaster to the Maine, wrote the following:

"Navy Department, Washington, Feb. 24.—No telegram has been received from either Admiral Sicard or Capt. Sampson or Sigbee since yesterday; the department has received no information with regard to the disaster that has not already been made public. The department is waiting the result of the inquiry, and public opinion should be suspended until some official information is received."

MINE UNDER MAINE.

Keel and Lower Plates Were Forced Up by Explosion.

Havana, Via Key West, Fla., Feb. 25.—There is no longer any reason to doubt that the battle-ship Maine was wrecked by the explosion of a submarine mine, and that her magazines or boilers were not responsible for the beginning of the disaster. In fact, it is now conceded that the magazines had far less to do with the general disaster than was supposed, and that the greatest havoc was wrought by the explosion under the warship.

Ensign Powelson, it is said, discovered that the forward part of the keel of the battle-ship, with its plate and ribs, was forced upward so much that parts of the double bottom of the ship projected out of the water, and in places the green paint of the hull was visible.

The ten-inch and six-inch magazines were thrown from their original positions in opposite directions, and diagonally with the line of the keel. The boilers forward were overturned and wrecked. It is positively stated that there were no fires in these boilers at the time.

AUTONOMY A FAILURE.

Consul-General Lee Adds His Opinion to Many Others.

Washington, Feb. 25.—When the correspondence now being prepared on the Cuban situation is sent to congress it will contain startling information, and none will be more surprising than the letter of Consul-General Lee, dated Dec. 13, in which he declares autonomy is a failure.

General Lee, after giving his positive opinion in regard to the Sagasta policy, discusses at length the condition of the island under Gen. Blanco, and gives his views of a new plan of government. In this regard he announces the failure of autonomy.

Gen. Lee's letter, while it is dated Dec. 13, is corroborated by letters dated later in the month, and from all the consuls on the island, and all make the same statement.

The consuls further relate the terrible suffering and loss of life all over the island and say two-thirds of the inhabitants of the island of Cuba have died since the beginning of the war from disease and starvation.

For the Coinage of Bullion.

Washington, Feb. 25.—The house committee on coinage, weights and measures agreed to recommend the passage of two administration bills. One diminishes the legal allowance for wastage in the coinage processes in the mints. The other provides for the coinage of so much of the Sherman law bullion as may be necessary to meet the demand for subsidiary coin and for the retirement of such an amount of Sherman notes as now represents the bullion which might be so used. The vote on the wastage bill was unanimous, but on the subsidiary coinage measure it was on strict party lines.

Lee Thinks It Was Treachery.

Washington, Feb. 25.—Consul General Lee, it is stated on good authority, has notified the state department that, in his opinion, the disaster to the Maine was not due to accident. He bases his opinion, it is asserted, on the results of the investigations of the divers. It is said that the board of inquiry has not yet reached this decision, but will in all probability do so. From everything Consul General Lee has been able to learn regarding the explosion and the circumstances connected with it it is claimed that he has given up the accident theory for that of treachery.

McKinley's Policy Is Clear.

Belleville, Ill., Feb. 25.—General William H. Powell returned from Washington Thursday. He discussed the explosion of the Maine with President McKinley while there. He says: "The president stated to me that if the complete report of the naval board of inquiry should show that our sailors met their death through Spanish treachery he was prepared to act at once and in a manner which would meet the approval of every loyal American citizen."

Says No Mine Was There.

Madrid, Feb. 25.—Admiral Terry, secretary of chief of staff of the minister of marine, said Thursday: "The harbor of Havana contained no submarine mine in the vicinity of the place where the battle-ship Maine and the Spanish cruiser Alphonso XII were anchored."

William J. Bryan Says Wait.

Topeka, Kan., Feb. 25.—In an interview W. J. Bryan declined to discuss the present crisis with Spain. He said there was time enough to discuss that affair when the official investigating committee in the Maine affair had made its report.

Spain Sends More Troops.

Havana, Feb. 25.—Fifteen hundred Spanish troops arrived Thursday from Barcelona in the steamer Montevideo,

CONGRESS TO ACT PROMPTLY.

Relief Measure Presented to the House—Senator Spooner Thinks Corbett Is Entitled to the Contested Seat—House Has a Very Busy Day.

Washington, Feb. 25.—Representative Boutelle of Maine, chairman of the house committee on naval affairs, introduced a bill Thursday providing for the relief of the victims of the United States battle-ship Maine. It follows generally the lines of the Samoan disaster relief bill of 1890 and is the result of several days' conference in committee and embodies the views of the administration. Chairman Boutelle had a conference with President McKinley at which he went over the proposed legislation with him and later submitted the measure at an informal meeting of some of the committee. It will be referred back to the committee, immediately acted on there, and its passage by congress expedited.

SPOONER FOR CORBETT.

Claims Latter Is Entitled to Seat in the Senate.

Washington, Feb. 25.—A feature of the senate's session Thursday was the speech of Mr. Spooner of Wisconsin on the right of Henry W. Corbett to a seat in the senate from Oregon under appointment of the governor. Mr. Spooner made a constitutional argument in favor of seating Mr. Corbett, and had not concluded when the senate adjourned.

An effort was made to obtain consideration of the Alaskan homestead and railway right of way bill, but on a parliamentary technicality it went over.

The resolution offered by Mr. Allen of Nebraska to appoint a committee of five senators to investigate the Cuban situation was withdrawn by its author when it was laid before the senate.

House Looks to the Future.

Washington, Feb. 25.—The house devoted itself strictly to business Thursday, and disposed of thirty additional pages of the sundry civil appropriation bill. The fact that the government is preparing for contingencies was recognized when Chairman Cannon, who has been laboring to keep down appropriations, accepted without a word of protest an amendment to increase the appropriation to care for the unused machinery at the Springfield arsenal. Mr. Gillette explained that necessity for using this machinery might occur at any time.

Children and adults tortured by burns, scalds, injuries, eczema or skin diseases may secure instant relief by using DeWitt's Witch Hazel Salve. It is the great Pile remedy. People's Drug Co.

One Night to Denver.

"The Colorado Special" via Chicago and Northwestern R'y leaves Chicago daily at 10 a. m.; DeKalb 11:30 a. m.; arrives at Omaha 11:50 p. m. same day and Denver 1:30 next afternoon. Connecting train from Janesville, leaves at 8:25 a. m. Connections made in the Union depot, Denver, with trains to all points in Colorado and the west. Up-to-date equipment. Daylight ride through Illinois, Iowa and Colorado.

Whooping cough is the most distressing malady, but its duration can be cut short by the use of One Minute Cough Cure which is also the best known remedy for croup and all lung and bronchial troubles. People's Drug Co.

Is the Baby Is Cutting Teeth.

Be sure and use this old and well tried remedy Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, cures all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Wisconsin Banker in Trouble.

Antigo, Wis., Feb. 25.—L. E. Bucknam has been arrested on another charge of embezzling \$22,000 of the Bank of Antigo's funds. The former case against him will be dropped.

Firearms Are Not Toys.

Two more deaths have lately resulted from what is known as "loaded" accidents—a mother killing her babe and a boy almost having his head blown off. Revolvers and guns are dangerous under all circumstances. Firearms are not toys. It is almost unsafe to trifle with what are termed minor ailments. Insignificant though they seem at first, they are likely, if precautions against their further development are neglected, or they are unwisely treated, to develop into maladies of dangerous and complex magnitude. The best way is to arrest their progress at the start with Hostetter's Stomach Bitters, which checks constipation, liver complaint and rheumatism, malarial kidney trouble and nervousness. A decline in health is something we cannot afford to disregard. Nature always exacts a severe penalty for continuous heedlessness of her warnings. Independently of its sterling efficacy as a specific for chronic maladies, the Bitters is a superb tonic and promoter of appetite and sleep.

To Enforce Anti-Trust Law.

Springfield, Ill., Feb. 25.—State's Attorney E. S. Smith has brought suit in the Sangamon Circuit court to enforce the penalty of the anti-trust law against the companies comprising the Springfield Coal association. It is charged that these companies combined to increase the price of coal and are guilty of conspiracy. An indictment was returned against these companies recently by the grand jury.

De Lome on the Other Side.

Queenstown, Feb. 25.—Among the passengers of the White Star line steamer Britannic, which arrived here Thursday from New York, was Senor Dupuy de Lome, formerly Spanish Minister to the United States. He refused to talk on the subject of Spanish-American relations or on the Maine disaster.

"THE LIGHT OF THE WORLD

OR OUR SAVIOUR IN ART"

Cost over \$100,000 to publish. Contains nearly 200 full-page engravings of our Saviour, by the great masters. Every picture is reproduced from some famous painting. Agents are taking from three to twenty orders per day. The book is so beautiful that when people see it they want it. The Hermitage, Prado, Uffizi, Pitti Louvre, Vatican, National of London, National of Berlin, Belvedere and other celebrated European galleries have placed their greatest and rarest treasures at our disposal that they might be engraved for this superb work. "FIRST GLANCE AT THE PICTURES BROUGHT TEARS TO MY EYES," says one. "Cleared \$150 first week's work with the book," says another. "Some high grade" man or woman should secure the agency here at once," says every editor. "As \$500 can soon be made taking orders for it." Nearly \$100,000 expended on new plates for edition coming from press. Also a man or woman of good church standing can secure position of Manager and Correspondent of this territory, to devote all his time to employing and drilling agents and corresponding with them. THIS DAY IN HISTORY

1684—Count Albrecht Wenzel Eusebius Wallenstein, or Waldstein, commander of the Austrian imperial army, assassinated by secret order of his sovereign. Wallenstein refused to obey the commands of the emperor, but aspired to a crown and opened negotiations with Austria's enemies. For this he was assassinated. 1728—Sir Christopher Wren, architect of St. Paul's, etc., died; born 1632. 1746—Charles Cotesworth Pinckney born in Charleston; died there 1825. 1871—Treaty arranged between France and Germany. 1894—Steele Mackaye, well known American actor, playwright and teacher, died at Timson, Colo.; born 1842. 1896—General David Morrison, a Federal veteran, died in New York city; born 1833. Rear Admiral Joseph Fyffe, U. S. N., retired, died at Pierce, Neb.; born 1832.

TWIN AMERICAN SENTIMENTS

Peace rules the day when reason rules the mind.—Collins.

If anyone attempts to haul down the American flag, shoot him on the spot.—John A. Dix.

These two sentiments go hand in hand—peace while reason will permit, but war when the American flag is insulted. The administration is acting on these lines, but the jingoes are not.

"Reason rules" in the executive department at Washington, and peace will undoubtedly be the result. There has been no ground for the "war talk" that has been heard lately, and there is no strong probability of war.

The fact that the Maine was blown up in Havana harbor has stirred the people to a high pitch of patriotism, but as yet there are no indications that the big ship would not have come to the same end in one of the harbors of the United States. The fact that the catastrophe occurred in the harbor of a nation whose relations with the United States are strained, does not justify the conclusion—without fact for foundation—that the foreign nation in question caused the disaster.

When it is shown that the horror was the result of Spanish machinations, will be time enough to charge the Spaniards with the offense. In the meantime "reason" demands that they be considered innocent until proof of their guilt is adduced.

The American flag has not yet been hauled down, and at present there is no occasion to shoot anyone on the spot.

President McKinley's majority over all the votes received for president by democratic, people's, prohibition, national, social labor and gold democratic candidates was 284,771. He received 918,956 more votes than Bryan, who was his principal opponent.

President McKinley received nearly two million more votes than were ever before cast for a candidate for the presidency. President Cleveland received the largest number prior to the last election—5,556,562. President McKinley's vote was 7,107,822.

Luetgert, the Chicago man, who was convicted of dissolving his wife in one of his sausage vats, thinks he can raise money to carry his case to a higher court by selling his photographs. Luetgert could sell all the sausage he could make before it was charged that he disposed of his spouse via the sausage route, but the average citizen would probably choose a link of his bologna as a parlor ornament in preference to his photograph.

Captain Sigabee's advice to "suspend judgment" was probably given with the idea that making an investigation coolly and finding out the true facts in the matter first, would be more likely to result in a chance to suspend the gentleman found responsible for the destruction of his good ship. He probably also realized that suspending the wrong man would be worse than not suspending anyone.

The railroads of the country are the mediums through which a large amount of money is put in circulation. Last year the roads of the United States paid \$39,970,791 in taxes; 826,620 people were given employment, the total payroll being \$468,824,531, or an average of \$567 per year to each employe.

Stephen Decatur said "Our country! In her intercourse with foreign nations, may she always be in the right; but our country, right or wrong." America is full of Decaturs at the present time, as is shown by the fact that thousands of men have written the war and navy departments offering to enlist.

European banks hold \$1,406,000,000 in gold. The United States mint bureau estimates that there is in the world \$4,350,000,000 in gold money, which figures do not include the immense hoards in China and India, which cannot be estimated.

The Milwaukee newspapers are making a great sacrifice these days in cutting down the Cuban news in order to print a full account of the "garbage inquiry." But it all is the same in the end. The Cuban news is mostly garbage, anyhow.

"V. zaya" is pronounced "Bith-kyah," or as near that as the English tongue can get it. The second syllable rhymes with "rye" and is really two syllables, but the two vowel sounds are run close together. Spain knows no diphthongs.

The country is safe as long as Walter Wellman stays in Washington, and people sleep better o' nights when they know that the president can consult with "Wally" at any time, day or night, if affairs reach a crisis.

"I wish I had a voice which could be heard throughout the length and breadth of this continent, that I might speak to the army of sufferers who are being tortured by the disease with which I have been afflicted for years. I have been an intense sufferer for several years, and everyone who has had that disease knows the extreme agony I must have endured. I ching burning, scratching, digging and loss of sleep has been my deplorable condition. Four of our best physicians had exhausted their energies on my case, without even giving me relief. Oh, what a godsend to me when one of our druggists called my attention to that wonderful remedy, Septicide, and assured me that it would do what skillful hands had completely failed in doing. Suffice it to say that two bottles cured me completely, so there is no return of this dreadful complaint. N. FARNHAM, Janesville, Wis.

Why Our Oysters Are The Best:

The large Oyster beds of the country are in the vicinity of Baltimore. Most Oysters are sent to Chicago and there re-packed and held (in pails,) we don't know how long, and then sent out to the trade. Our Oysters come, as we have stated before, direct from Baltimore. The moment they arrive they are placed in large stone jars surrounded with ice. From there they go into the Oyster refrigerator jars—no lake water or Chicago River water touches them. They are as near the Oyster the "shucker" takes from the bed as is possible. It pays to buy the best, and we think our Oysters are the best.

WILL SOON HUM WITH INDUSTRY

HALL FURNITURE COMPANY REORGANIZED.

Work Will Be Resumed Within the Next Two Weeks—Employment To Be Given Thirty Men—Chamber Sets Will Be the Specialty.

Steps were taken today to reorganize the Hall Furniture company, and a meeting of the stockholders will soon be called.

Over one-half of the required amount of stock has been subscribed, and the present indications are that the factory will resume operations within the next two weeks.

George W. Blabon, of Philadelphia, who owns the controlling interest in the Janesville street car line, is the latest man to have his name added to the list. Mr. Blabon thinks the investment a good one, and has taken \$400 in stock.

Among those who have subscribed the largest amounts may be mentioned the following:

J. M. Bostwick & Sons.....	\$ 400
O. W. Bostwick.....	400
W. T. Vankirk.....	400
George W. Blabon.....	400
A. P. Lovejoy.....	300
John R. Bennett.....	300
Henry Hansen.....	200
J. J. Hall.....	200
J. W. Carpenter.....	200

Aside from these several persons throughout the city have taken \$100 in stock, while not a few have promised contributions. In case the Hall factory resumes work it will mean much to the city, for the reason that it will give employment to a working force of about thirty men. The factory itself is considered one of the finest equipped in this section of the country and cost complete, when built, about \$40,000.

Good Prospects Ahead.

The machinery in the factory during the time that it has remained idle has received the best of care and the factory could resume work tomorrow if it was necessary. The manufacture of chamber sets will probably be a specialty upon the starting up of the works, for it is thought there is a strong demand throughout the country now for this class of goods. At Rockford the furniture factories are all running at full force and report one of the busiest seasons in their history. Orders from all sections of the country have found their way into the Forest City factories of late, which must indicate much activity in the furniture business.

Will Open Soon.

"I think it is safe to say that the Hall furniture factory will be running inside of two weeks," said a prominent stockholder this noon, "for the reason that a movement was started today tending towards re-organization of the company. A meeting of the stockholders will soon be called, and of course that means the election of officers and the opening of the factory. A few shares at \$100 each remain unsold, but in case these are not taken by outsiders I think that some of those who have already taken stock will again come to the front and subscribe for the remaining shares."

HAS WON A HIGH PLACE

Janesville Musician Has Met With Great Success.

Mrs. O. C. Ford is making a marked success in musical work since she went to Chicago. Harrison Wild, the organist, has bought of her the right to sing as a solo one of her sacred songs. It will be sung by his leading soloist in about a week. Mr. Wild has about sixty boys in the Grace church choir, and Robbie Ford has been chosen out of many to fill the only vacancy in the choir. He takes his position March 1. Mrs. Ford's success in Chicago is a source of pleasure to many Janesville friends.

Brakeman Mellinger Badly Injured by Falling from an Engine.

F. E. Mellinger, a brakeman on the way freight on the Northwestern road between this city and Chicago, was badly injured yesterday at Ridgefield, Ill. That he did not lose his life was a surprise to those who witnessed the accident.

At 10 o'clock in the morning Mellinger, while riding on the engine, accidentally fell, and the wheels cut and crushed his right foot and leg below the knee so that amputation may be necessary. The injured man rooms at the Y. M. C. A. building in this city.

WAS ORIGINALLY ENTERTAINED

Friends of Dr. Morehouse Treated to Stereoscopic Views.

Nearly one hundred persons assembled by special invitation at the parlors of Mrs. F. D. Murdoch, 53 North Franklin street, last evening, where they were agreeably entertained by Dr. Morehouse, whose office is in the flat above. The entertainment consisted of a dozen gramophone selections, and more than one hundred beautiful stereoscopic views, most of which, together with the powerful stereoscopic used, are the work of the exhibitor's own hands. The doctor's rooms are well filled with articles and apparatus for amusement and instruction, and he is ever ready to explain and use them for the benefit of his many friends.

Mrs. O. H. Brand kindly responded to urgent requests with a recitation which brought out to fine advantage her well trained powers as an elocutionist.

NEW RECTOR FOR TRINITY CHURCH

REV. F. W. MARYON, OF WEST BEND, CALLED HERE.

He Is Highly Recommended By Bishop Nicholson—Members Of The Church Are Highly Pleased At The Prospect Of His Coming.

Rev. F. W. Maryon, of West Bend, Wis., will in all probability be the next rector of Trinity church. At a meeting of the vestry held Tuesday evening a unanimous call was extended to Mr. Maryon and the members of the church are now anxiously awaiting his reply.

Rev. Mr. Maryon is not an entire stranger in this city, he having preached here last Sunday at both the morning and evening services. Both of his sermons were of a high order, and that he is considered the right man for the right place one may judge from the quick action that members of the vestry took in extending to him a unanimous call.

Highly Recommended

Bishop Nicholson writes from Milwaukee highly recommending him for the place. He believes that in case he decides to accept, it will not be long before Trinity church will again find itself forging to the front.

Rev. Mr. Maryon is a young married man, has been in this country not quite three years, he having been located at Manchester England. In America he thought there was a better opening, and for the past two years he has been located at West Bend, this state. The town of West Bend is not what the average rector would call the most promising field in the world, and it is understood that Mr. Maryon has been looking for a change in location for some time. His congregation has become attached to him, and they regret much his idea of leaving.

Pleased With the Selection

"In view of the fact that a unanimous call has been extended," said a member of the church this afternoon, "and that Rev. Mr. Maryon comes highly recommended by the bishop, I think the chances are that he will be the next rector to occupy the pulpit of Trinity church."

ARQUETTE NOT OUT OF JAIL

Locked In His Cell Three Hours Before Fire Was Discovered

John Arquette has spent every night in jail since he was sentenced except one. Soon after his child was burned the sheriff allowed him to go home for one night, but that is the only time that he was outside of his cell at night. The night of the fire on Sulpe hill, Arquette was locked in his cell by Sheriff Acheson, at 8:30 p. m., and the door was not unfasted until 7 o'clock the next morning. The fire did not break out until 9:30 that night. Arquette has been a model prisoner, and he has been given some of the privileges accorded to "trustees," but has not been away from the jail but the one night mentioned—when it was thought that his child would die before morning.

EGGS ARE EXCEEDING SCARCE

Hens Have Been Neglecting Their Duty of Late.

Local grocers report a scarcity in hen fruit. Rock county farmers say they are unable to collect any eggs during this chilly weather. The depressing hen is on a strike. Her comb may be as red as a beet and she may make it her business to scratch around the straw in a highly suggestive manner, and yet you couldn't hire her to lay an egg while the prices are such as to make her product profitable. When the bottom is knocked out of the market, and it takes twelve eggs to bring eight cents, then she is busier than anybody, and if she don't lay two eggs per day it is not because she does not want to. The hen is a contrary creature.

COMING NUPTIAL EVENT

Will Take Place in the Town of Lima Next Month

Cards have been issued inviting friends to the marriage of Miss Mabel Hardy, at the home of her parents, Mr. and Mrs. Zerah Hardy, on the 9th of March, to Myron Painter, both of the town of Lima. A pleasant consequence of this event is the fact that Mr. and Mrs. Painter will become residents of the town of Lima.

SAYS HE WAS TOUCHED

Christian Lever's Pockets Were Empty When He Was Arrested

Whether or not Christian Lever, of the town of Plymouth, was relieved of \$25 in cash last night is a matter that the police are now trying to solve. At 2 o'clock this morning Mr. Lever was found in a state of intoxication by Officers Brown and Conroy, who took him to jail. Both his pockets were turned inside out, and according to his story he must have been touched. The police doubt Mr. Lever's story.

How He Erred.

"Just think!" she said. "I never met him but twice, and yet he sent me love and kisses in a letter. What would you do about it?"

"I should never recognize him again," replied her dearest friend, decisively.

"That seems rather harsh, but—"

"Any man," went on the dearest friend, "who does not know enough to deliver anything of that sort in person should not be entitled to the privilege of feminine society."

Afterward, when the matter was taken up at the Girls' Debating club, it was unanimously decided that she was right.—Chicago Post.

Was Very Considerate.

Mrs. Beeson—George, what makes you so quiet when you're out in company? You sit around like a dumb person. Why don't you talk more?

Mr. Beeson—My dear, I do talk when I am out alone. I was quiet this evening because I thought it wouldn't be just the thing for one family to monopolize the conversation.—Washington Post.

Seldom Fatal.

Boody—Doctor, I'm very much alarmed about my son. He has had three peculiar attacks within a week and during each of them he was without sense or knowledge for nearly three hours.

Doctor—Oh, don't be uneasy about a little thing like that. I've known people to live all their lives in a similar condition.—Chicago Daily News.

Correctly Answered.

"Now, Thomas," said a certain bishop, after taking his servant to task one morning, "who is it that sees all we do, and hears all we say, and knows all we think, and who regards even me in my bishop's robes as but a vile worm of the dust?"

And Thomas replied: "The missus, sir!"—Tit-Bits.

A Lover's Description.

Miss Mugg—I don't see how it is your sister failed to find me at the station. You said you would describe me to her.

Infatuated Lover (who sees a good deal more in Miss Mugg than other folks can)—Yes, I told her to look for a beautiful girl, with the face of a Madonna, and the form of a sylph. It's queer she missed you.—N. Y. Weekly.

RAILROAD TRAFFIC IS NOW BOOMING

ALL THE ROADS REPORT AN INCREASE OF BUSINESS.

Freight Trains Are Larger and More Numerous Than For Months Past—Belief That the Improvement Will Be Permanent In This Section.

Between the hours of 7 o'clock yesterday morning and 12 o'clock last night twenty-five freight trains passed into the local yards of the Chicago & Northwestern railroad company. The majority of these trains came from the north with two engines attached.

On the St. Paul road the same booming state of affairs is reported, and if the present business keeps up an additional number of crews will have to be added for service. Freight train crews on the Northwestern road are now working from early till late, and several of the men are drawing double the money they were a year ago at this time.

Shipments Are Large.

From the north the greater bulk of yesterday's shipment consisted of lumber, iron ore, poles, grain and merchandise. From the south as well as the east the shipping of farm machinery and general merchandise is now being made to the extent of hundreds of cars each week. Coal is also on the move, and not a few cars have been passing through here of late on their way west. Live stock shipments from Wisconsin, Iowa and the far west are a specialty with the St. Paul company, and each week from off the Mineral Point division special stock trains have been arriving, each being consigned to the Chicago market.

A Permanent Improvement.

"The late snow storms interfered with the arrival of freight from Chicago," said a prominent Chicago & Northwestern official this morning, "but that has nothing to do with the present rush of business that we are enjoying. Our road is now having this booming state of affairs to contend with all over the entire system, and if that isn't a sure sign of an approaching promising spring, I never heard one. We expect the business to keep up for several months."

HIS WORK IS COMPLETED.

After Passing the Revenue Bill and Continuing the Berry Police Investigating Committee the Lawmakers Go Home—Review of the Session.

Springfield, Ill., Feb. 25.—After passing the revenue bill in the house and senate, killing the McGinnis telephone bill in the house and the Harnsberger primary election bill in the senate, and extending the inquisitorial life of the Berry police investigating committee to the end of the year, the extra session of the Fortieth general assembly adjourned sine die late Thursday afternoon.

The revenue bill had but a small majority. Not one of the seventy-eight votes recorded for the bill was Democratic, and three Republicans—Andrus, Glade and Lyon—sat in their seats, and in spite of the party lash refused to vote. In the senate Littler and Fort, two Republican senators, voted against the bill. The vote was: Yeas, 78; nays, 60.

Maj. Buckner, in the house, introduced a joint "civil-rights" resolution, which was adopted by both branches of the general assembly. It requested that senators and representatives in congress from Illinois do all in their power "to secure such legislation as may be necessary to insure to the colored voters of the Southern states all those rights and privileges guaranteed by the United States constitution."

Maj. Buckner also introduced a resolution calling on congress to declare Lincoln's birthday a national holiday.

The last resolution presented in the senate was offered by Senator William J. O'Brien. It read as follows: "Resolved, by the senate of the state of Illinois, that we heartily approve of the endeavor of our representative in the United States senate, William E. Mason, to free the island of Cuba."

The resolution went over under the rules, and a few seconds after the senate adjourned.

The special session of the legislature was called to order Dec. 7, 1897, or just eighty days ago. It was called to make a new senatorial reapportionment; to pass a revenue bill; to pass a primary election bill; to pass a metropolitan police bill, and to appropriate money for the soldiers' home at Quincy, and to enable the attorney general to defend the inheritance-tax law in the United States supreme court. With the exception of the police bill, every item mentioned in the governor's call has been taken up and carried through to enacted legislation. It is estimated that the extra session cost \$104,000, including the money paid for mileage and stationery for members.

Gov. Tanner signed the Campbell "school-ma'am" bill. This is the measure which increases the proportion of school taxes in Cook county to be used for educational purposes from 2 to 2 1/2 per cent, the object being to enable the Chicago board of education to increase the salaries of teachers.

Saw Hughes Strike Schuter.

Versailles, Ind., Feb. 25.—After examining twenty-five or thirty witnesses in the preliminary trial of Ezekiah Hughes, charged with the murder of Henry Schuter, and failing to get any evidence, the state sprung a sensation when Charles Kelley, an eighteen-year-old lad, was put on the witness stand. Kelley was in jail the night the five men were lynched. The mob, he said, entered the jail about 1 o'clock in the morning, and came to the cell in which he and Henry Schuter were. He saw Hughes strike Schuter on the head with a heavy club and Schuter fell to the floor insensible. The witness said that he also recognized James McCoy and Harry Andrews in the jail, and saw them taking the prisoners out after beating them. This closed the case for the state.

New Officers Are Elected.

Springfield, Ill., Feb. 25.—At Thursday's meeting of the Illinois Press Association the auditing committee reported the treasurer's books correct. The receipts were given at \$785.95 and the expenditures at \$305.05, leaving a balance on hand of \$480.90, which will be reduced by the payment of several outstanding bills. Charles Boeschstein was chosen president. The association adjourned sine die to meet at a place to be designated by the executive committee.

MOTIVES ASCRIBED TO HEDLEY.

Testimony Given at His Trial for Killing Mayor Richards.

Carlinville, Ill., Feb. 25.—The denouements in the Hedley manslaughter case are coming fast. The state has introduced witnesses who testified that Capt. Hedley had a strong motive other than self-defense in killing Mayor Richards of Bunker Hill. Hedley is married and has two grown daughters. Richards loved and desired to wed Miss Brown, but she refused. The evidence Thursday showed that the defendant and Miss Brown met repeatedly; that they were seen in each other's arms kissing one another. The pastor and janitor of the Congregational church on the stand swore that they found Capt. Hedley and Miss Brown in the church with the door locked from the inside.

Rev. Mr. Hertel testified that Hedley told him not to worry if some one was killed; that he had the honor of two families to preserve. The state has more evidence to introduce. Court is adjourned till Monday.

FATHER'S AWFUL DEED.

Kills His Two Little Daughters, Then Commits Suicide.

Auburn, Ind., Feb. 25.—In the neighboring town of Garrett Thursday night Fred Simons shot and killed instantly his two daughters, aged two and four years, and then shot himself. The deed was committed in his own home while his wife had stepped over to a neighbor's. Simons had been an employee of the Baltimore & Ohio railroad for a number of years as ticket agent, but lost that position a short time ago. Later he was employed as car inspector, and Thursday lost that position. He became despondent, and it is believed, lost entire control of his mind, which resulted in the tragedy. He was well liked and considered a good man. Nothing has ever happened in this community that caused so much excitement.

ANTI-FUSION LAW UPHELD.

Republicans in the Iowa House Vote Against Its Repeal.

Des Moines, Iowa, Feb. 25.—The bill by Mr. Smith of Harrison to repeal the anti-fusion feature of the ballot law was defeated in the house by a vote of 40 yeas to 56 nays, while the senate passed the Titus resolution providing for the submission of an amendment to the constitution for biennial elections. The latter will take effect in 1902 if the amendment should be favored by the next legislature and adopted by the people.

The house committee on railways receded from its position on the Temple amendment, dropped the house bill by Mr. Cook, and reported favorably on the senate bill by Mr. Hobart.

WHAT pleasure is there in life with a headache, constipation and biliousness? Thousands experience them who could become perfectly healthy by using DeWitt's Little Early Risers, the famous little pills. People's Drug Co.

To Check Canadian Pacific.

Portland, Ore., Feb. 25.—The Portland Chamber of Commerce passed a series of resolutions urging congress to withdraw the bonding privilege from the Canadian Pacific railroad. The resolutions state that by reason of its freedom from the restraints of the interstate commerce law of the United States the Canadian Pacific has an advantage over the American roads which enables it to deprive them of a large part of the carrying trade of this country.

Bryan's Program South.

New Orleans, La., Feb. 25.—William Jennings Bryan has arranged to speak in the gulf cities during the first week in March. He will probably address the Louisiana constitutional convention March 1, at a special invitation of that body. He will speak at Mobile March 3, and at Pensacola March 5. His other engagements are not yet announced.

Stop! Women, Money Saved....

And Consider the All-Important Fact,

That in addressing Mrs. Pinkham you are considering your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

STATE OF WISCONSIN—IN CIRCUIT COURT FOR ROCK COUNTY.—Albert Schaller and Geo. M. McKee, plaintiffs, vs. Cynthia W. Dudley and E. H. Dudley, defendants.

Notice is hereby given that pursuant to a judgment and order of the said Court in the above entitled action, made and entered on the 21st day of February, 1898, I will offer for sale at public auction, at the east door of the post office building, in the city of Janesville, Rock County, Wisconsin, on the 15th day of April, 1898, at ten o'clock in the forenoon, all of the right, title and interest which the said defendant, Cynthia W. Dudley, had in and to the premises hereinafter described, on the 15th day of August, 1897, or which the said defendant, Cynthia W. Dudley, or any and all persons claiming under her, have since acquired therein, or so much thereof as may be necessary to satisfy the amount adjudged due to the plaintiff in said action, together with the costs thereof, which premises are situated in the county of Rock and state of Wisconsin, are described as follows, to-wit:

A certain piece or parcel of land in the south half of the south west quarter of section number thirteen (13), town three (3), north of range twelve (12), east of the fourth principal meridian, to-wit: Beginning on the south side of said quarter at a point fifty-four (54) links, west of the south-east corner thereof; thence north eighty-eight (88) degrees and ten (10) minutes, west, twenty-four and forty-six one-hundredths (24.46) chains; thence north twenty-one (21) minutes, west along the east line of a stone quarry lot, two and thirteen one-hundredths (2.13) chains, to center of highway; thence north along center of said highway four and seventy-nine one-hundredths (4.79) chains; thence south eighty-eight (88) degrees, ten (10) minutes, east twenty-five and one one-hundredths (25.15) chains; thence south parallel to east line of said south-west quarter sixteen and thirteen one-hundredths (16.13) chains, to place of beginning.

Dated Feb. 23rd, 1898.

THEO. L. AGHESON, Sheriff for Rock County Wisconsin.

DANGER IN SODA.

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.

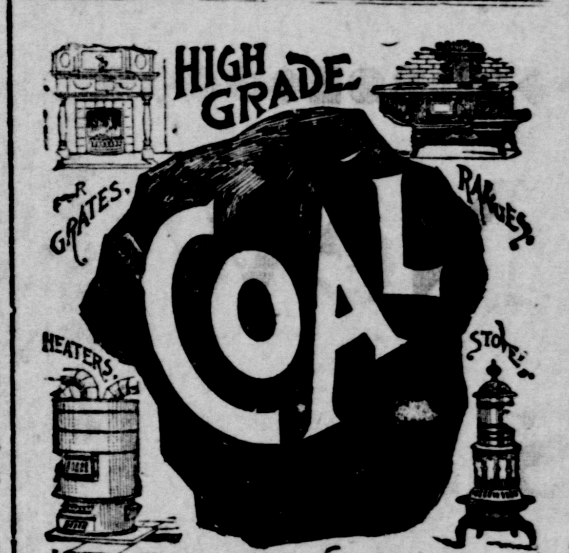

The soda acts as a mechanical irritant to the walls of the stomach and bowels and causes an over-accumulation of food in the intestine, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, pepsines, and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in any stomach trouble except cancer of the stomach.

All druggists sell Stuart's Dyspepsia Tablets at 50 cts. per package.

A little book describing all forms of stomach weakness and their cure mailed free by addressing the Stuart Co. of Marshall, Mich.

MINERS HAVE A SCALE.

Work of State Convention of the United Mine-Workers of America.

Springfield, Ill., Feb. 25.—At Thursday's session of the state convention of the United Mine Workers of America the report of the committee on scale of wages was presented and adopted, and the joint conference of miners and operators met and took up the discussion of the scale as submitted.

The following resolutions were adopted: Imposing a fee of \$20 upon all inexperienced miners as an initiation fee, that April 1 be declared a holiday and that labor meetings be held in every mining locality in the state to manifest appreciation of the result of the recent Chicago conference; that the agreement made at Chicago should be carried out and that moral and financial support be given all miners unable to secure work.

The committee appointed to confer with the hoisting engineers regarding an affiliation reported favorably upon the proposition and recommended that all mining engineers join the hoisting engineer's society. A resolution was also adopted demanding that operators be compelled to lay all roads themselves or by their employees, instead of the work being done by miners.

LAST RITES ARE DONE.

Funeral Services for Miss Willard in Her Home Church.

Chicago, Feb. 25.—All that was earthly of Frances E. Willard was laid to rest in Rose Hill cemetery yesterday after appropriate tributes from her immediate friends and neighbors. It was a fitting climax to the honors paid by a loving public during the journey from New York, that the last rites should be held in Miss Willard's home church, crowded with her neighbors and intimate personal friends, and that the last words should be spoken by those who have known and loved her in the contact of daily life, as well as a splendid leader of great reforms.

The nation mourns the founder of the Woman's Christian Temperance union, the white ribbon, the apostle of temperance, purity, and social reform; the people of Evanston mourn the loss of a sister, a friend, a loved companion. Mourning was everywhere in Evanston. Business was practically suspended, ordinary occupations were ignored, and the people gave themselves up to mourning the death of Miss Willard and to honoring her memory.

Too Early.

"Was it a quiet wedding?"
"Of course. You didn't expect they would quarrel right before the preacher, did you?"—Pearson's Weekly.
